

PRINCE2® Introduction

Course Description

The event covers the project management principles that have been introduced in PRINCE2®.

The half-day briefing includes the following:

- Instructor Led Tuition
- Individual & Group exercises
- Study Pack

Course Objectives

The course will enable delegates to:

- Define a project
- Distinguish between project success and failure
- Identify the different Processes, Components and Techniques used in the PRINCE2® model
- Evaluate the impact of using the PRINCE2® model

Intended Audience

The event is recommended for project managers, project team members and project assurance and project support staff - in short any staff working on any type of project. The course is also suitable for anyone who wishes to understand PRINCE2® and the implications for their organisation or project. The event is particularly suitable for those tasked with introducing a modern project management system into their organisation.

Course Outline

PRINCE2® is a “Process-Driven” approach to project management with processes to support each of the main “drivers” within the project. PRINCE2® is suitable for planning and controlling any type of project, regardless of scope or size. PRINCE2® is increasingly being viewed as “Best Practice” and up to date knowledge of the method is a must for anyone concerned with modern project management techniques. The half-day briefing is delivered in a number of modules, all of which include interactive discussion as the main vehicle for understanding PRINCE2® and its implications.

What's included

- Pre-course instructions and essential pre-course reading
- Delegate handout pack

Your Instructor

All instructors are practising Project Managers, with many years of experience managing projects of varying size. All instructors are themselves “Registered PRINCE2® Practitioners”.

Benefits

- Course provides an overview of the project management principles that are used in PRINCE2®
- Delegates will learn the processes components and techniques that make up the PRINCE2® methodology
- Find out more about PRINCE2® before making a significant investment in the methodology

Price: This course is only available as an on-site event and prices are available on application
